

Causes of World War 2 animated Video Project

As we have been studying, there was much anger, hate, and resentment by the Germans toward the rest of Europe at the end of World War 1. However, the road to World War 2 was not a fast process. Instead, it was a series of many events by the Germans and acts of appeasement by the other European Nations which led the world into another massive war. For this project, you are going to create a video using Go Animate (www.goanimate.com). The purpose of your video is to explain the causes of war in some way. You may use any FREE template or characters within the Go Animate program to convey the required information. The Video you create will be viewed and graded by your classmates. Be creative, but remember to stay on topic!
